

BROADWAY GYMNASTIC SCHOOL

TEENAGE PROGRAMS

- FOR STUDENTS WITH SPECIAL NEEDS -

Teenage programs at Broadway Gymnastic School are very successful and have been designed to match the changing needs of a developing teen. It is at this time that a child turns more towards their peers with a greater need for peer-relationships and friendships. At BGS, they will receive guidance and support in a wholesome, safe, physical, and healthy environment, building confidence, strength, and self-esteem. Building life skills in our programs will prepare teens further to become an integral part of our community.

Please also see our general flier and website, and call the special education director for further information!
